Esteemed Judiciary Committee Members,

I am a 76 year old resident and Vietnam Veteran of Bethel and wish to express my opposition to Bill HB 6355AN ACT CONCERNING RISK PROTECTION ORDERS OR WARRANTS.

My reasons are that:

1. Current laws deal with these issues currently.
2. This bill would stop people for seeking mental health and wary of potential police involvement at home and work.
3. False claims may be use with this bill without any indication of actual threats.
4. The seizure and release of firearms currently in place works without requiring more invasive laws.

Thank you for your hard work and the time spent involved for our state.

Sincerely,

Richard J. Quinn
